Spring-Flowering Bulbs

JOUR garden can easily be glorious with bloom from early March through May by planting the various bulbs we list on the following pages; and most of these will be persistent, returning year after year, even increasing in number. Surely no other investment can pay such dividends in continued joy and satisfaction as a few dollars spent for spring-flowering bulbs.

If you are uncertain as to what to plant or where, let us make suggestions. No obligation, of course.

ROSES

If it is true that no flower is as lovely as the Rose, it is probably equally true that no flower is more exacting in its requirements. This queen among flowers demands intelligent, loving care to develop its greatest beauty.

We advocate the fall planting of dormant Roses, and elsewhere in this booklet give instructions for planting and care.

J. H. SMALL & SONS

Established 1855

FLOWER AND GARDEN CENTER

1501 Connecticut Avenue • WASHINGTON, D. C.

HYACINTHS

Gertrude. Dark pink. **King of the Blues.** Dark blue. **L'Innocence.** White. **Lady Derby.** Light pink. **Yellow Hammer.** **Queen of the Blues.** Light blue.

SMALL'S RECOMMENDED ROSES

For Fall Planting

The Best of the Standard and New Varieties of Hardy Roses

We offer only two-year-old, No. 1 selected northern field-grown plants. You cannot buy better Roses than these we offer.

PLANTED properly and cared for faithfully through the season, they should grow and bloom abundantly. Dig the Rose-bed deeply—18 inches is not too deep. Enrich the bed thoroughly; trim off broken or straggly roots; spread out the roots when planting and *firm them into the soil*. Trim back the tops half-way. As freezing weather approaches, draw the soil up around the stems to protect from freezing.

EVERBLOOMING HYBRID TEA ROSES

55 cts. each; \$5.95 per doz.

Ami Quinard. Semi-double flowers of maroon-red.
Autumn. Orange, marked with red; double, fragrant flower.
Betty Uprichard. A blend of deep-toned carmine with coppery orange on the outside; interior a delicate salmon-pink.
Briarcliff. Double, fragrant blooms of brilliant rose-pink.
Condesa de Sastago. A fine double golden yellow Rose beautifully striped with brilliant red.
Dame Edith Helen. Unusual for its large number of petals. Sweetly scented blooms of clear pink.
Duchess of Wellington. Deep saffron-yellow with large petals of great substance. Delightfully fragrant.
Duchesse de Luxembourg. Fragrant yellow bloom with copper shadings.
E. J. Ludding. Vivid shade of deep rose-pink. Excellent for cutting.
Edith Nellie Perkins. A vigorous grower and free bloomer. Outside Oriental red; inside salmon-pink.
Editor McFarland. Glowing pink, suffused with light yellow.
E. G. Hill. Long, full, double flower of brilliant scarlet.
Eldorado. Golden yellow with base of petals slightly tinted red.
Etoile de France. An excellent red Rose; profuse bloomer.
Etoile de Hollande. One of the most popular of all Roses. Fragrant, brilliant red blooms of magnificent size.
Golden Dawn. Large, well-formed flowers of sun-flower-yellow.
Jonkheer J. L. Mock. Inside a deep imperial pink; outside silvery rose.
Joanna Hill. A popular choice. Clear, pale yellow with orange-yellow heart.
Julien Potin. Clear primrose-yellow; abundant, fragrant flowers.
Kaiserin Auguste Viktoria. Soft pearly white with just a trace of lemon in the center.
Killarney, Double White. The most popular white, with flowers pure snow-white.
Lady Alice Stanley. A beautiful shade of coral-rose, the inside shading to flesh-pink with deeper flushes.

Lady Ashtown. Brilliant pink Rose with golden shading at the base.
Margaret McGredy. Very prolific bloomer. Flowers solid orange-vermilion.
McGredy's Scarlet. Fragrant, full, double flowers of brilliant scarlet, orange-yellow at base.
Mevr. G. A. van Rossem. Shaded apricot on deep golden yellow. Prolific bloomer.
Miss Rowena Thom. Enormous buds and blooms of fiery rose and mauve, shaded with gold at the center.
Mme. Caroline Testout. Large, fragrant flower of bright satiny rose with bright center.
Mrs. Aaron Ward. A dependable yellow Rose, slightly shaded with salmon.
Mrs. Charles Bell. Fine bloomer. Lovely shell-pink with shadings of soft salmon.
Mrs. E. P. Thom. Popular yellow choice. Bright canary-yellow, deepest in center.
Mrs. Pierre S. du Pont. Very lasting, fragrant flower of deep golden yellow.
Mrs. Sam McGredy. Scarlet coppery orange, heavily flushed with red on the outside, giving a rich effect.
Premier Supreme. Very large, long-lasting flowers of deep pink.
President Herbert Hoover. An excellent combination of cerise-pink, scarlet, and yellow, with excellent foliage.
Pink Radiance. Produces throughout the hot weather, brilliant carmine-pink blooms.
Red Radiance. Possessing all the good traits of Pink Radiance. Bright cerise-red.
Rapture. Solid flowers opening to a beautiful salmon-pink.
Rev. F. Page-Roberts. Copper-red buds opening to golden yellow, fragrant blooms.
Roslyn. Large, fragrant, golden yellow blooms with orange coloring.
Syracuse. Full scarlet-crimson flowers. Vigorous grower.
Talisman. Scarlet-orange and rich yellow—the most vivid color yet produced in Roses.
Willowmere. Superb buds and blooms of richest pink, shining with a yellow glow.

HARDY HYBRID PERPETUAL ROSES

55 cts. each; \$5.95 per doz.

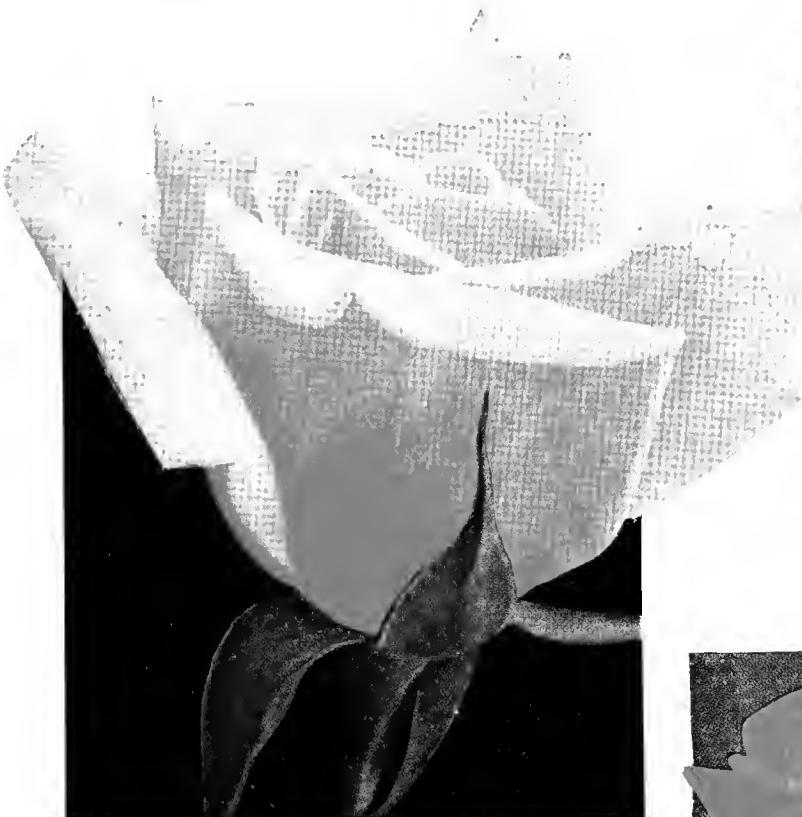

Frau Karl Druschki. The ideal hardy white Rose, pure in color, perfect in form, and remarkably free flowering. Growth is vigorous and upright, and the plant is very hardy.

Mme. Albert Barbier. Soft fawn-yellow, paling to white, with pinkish shades in the center.
Soleil d'Or. Large flowers shading from orange-yellow to ruddy gold, shaded red.

PINK RADIANCE

PRESIDENT HERBERT HOOVER

RED RADIANCE

CLIMBING ROSES

55 cts. each; \$5.95 per doz.

Alida Lovett. A vigorous grower which can be trained upright or along a fence or hedge to advantage. Large clusters of rich clear pink flowers.

American Beauty. A pleasing rose-pink Climber frequently making shoots from 10 to 12 feet long.

Bess Lovett. Large, full flowers of light crimson-red in long-stemmed cluster, fine for cutting. Excellent foliage.

Cl. President Hoover. A new Climber of vigorous habit. Scarlet, shading to yellow.

Cl. Radiance. Has the same vigorous habit as the bush Radiance. Brilliant carmine-pink.

Cl. Red Radiance. All the sturdiness of the Radiance in this bright cerise-red Climber.

Cl. Souv. de Claudius Pernet. An excellent clear yellow which continues to hold its popularity.

Dr. W. Van Fleet. One of the loveliest of all Roses — a rich flesh-pink.

Emily Gray. A fine clear yellow, pleasingly fragrant.

Gardenia. Large, yellow flower shading to creamy white.

Jacotte. Semi-double, long-lasting flowers of orange-yellow, tinted coppery red.

Mary Lovett. Pure white flower in heavy clusters with fine foliage.

Mary Wallace. A bright clear rose-pink with salmon base. Blooms freely.

Mme. Gregoire Staechelin. Sturdy, fragrant Climber, with crimson blooms opening carmine, with an iridescent pearl-pink center.

Paul's Scarlet Climber. An enthusiastic choice with many. True scarlet in color.

Primrose. A true clear yellow of remarkable hardiness.

Scorcher. A strong, satisfactory Climber which justifies its name in brilliant redness of its large, lovely flower.

Silver Moon. Large, pure white, clematis-like flower, enhanced by yellow stamens.

POLYANTHA ROSES

55 cts. each; \$5.95 per doz.

Chatillon. Bright pink, semi-double blooms with an illuminating touch of orange.

Gloria Mundi. Bright orange-salmon flowers in large clusters.

Golden Salmon. Splendid for mass planting. Two-toned flower of orange and salmon.

Improved Lafayette. Large, semi-double flowers of light crimson with frilled form. Vigorous and bushy.

Mrs. R. M. Finch. Bright rose-pink flowers in branching, fragrant cluster. Blooms profusely all season.

RUGOSA ROSES

55 cts. each; \$5.95 per doz.

Agnes. Pale amber with a deeper center, borne singly on short stems.

Austrian Copper. Superb and unique in dazzling combination of copper shading to orange.

F. J. Grootendorst. An adaptable Rose with a clear red, carnation-like flower.

Pink Grootendorst. Clear pink, double blooms, borne in clusters.

PEAT MOSS

Imported Granulated

A moisture-retaining humus and an aid in saving soil fertility. It furnishes the needed organic matter which all soils require. An excellent material for spreading on the lawn, mulching in the flower and vegetable garden, and especially desirable for the rose-bed. Used extensively by leading florists for mixing with potting soil, for propagating benches, also for packing bulbs and plants. Large bale \$2.75.

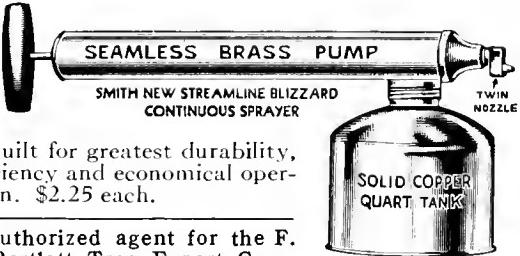

HYPER-HUMUS

Hyper-Humus is a pure, organic material prepared for the purpose of building up the soil. Due to its fineness in texture and being non-acid, it is far superior to leafmold. Leafmold is very coarse and hard to procure, and being of an acid nature, is not adaptable to every kind of plant. Hyper-Humus, on the other hand, is easy to secure, is fine in texture, and decomposes much more quickly. Being neutral in action, it is adaptable to all plants.
